

Providing expert help and resources

The best part of our work at the University Libraries is when we hear good things from people we've helped.

"Thank you. I am a new student at UA and this helped me tremendously. Thank you!"

"This is the first time I have used the chat feature and it was very helpful! This is exactly what I was looking for. You are awesome!"

"I have to tell you that I have been very, very impressed with the UA library services and assistance. I'm an older adult student, returning to school, still working, etc. So the guidance you all provide for library resources has been very appreciated."

We specialize in research, information literacy, scholarly communication, copyright, data management, makerspace technologies, and so much more. Getting messages like this makes our day.
